SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE	DELIVERY MODE
3 MONTHS	01/17/2007	PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary

Application No.

10/760,028

Applicant(s)

CHAU ET AL.

Examiner

Bradley K. Smith

Art Unit

2891

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 November 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-7,9,10,14-18,20 and 22-28 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 24-28 is/are allowed.
- 6) ☒ Claim(s) 1-3,10,14,22 and 23 is/are rejected.
- 7) ☒ Claim(s) 4-7,9,15-18 and 20 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 11/3/06 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 10, 14, 22 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Wu (US Patent 6,114,201). Wu disclose disposing a trench layer upon a semiconductor substrate (18 ,20), forming one or more trenches (24) in the trench layer exposing the semiconductor substrate, filling the one or more trenches (34) with a semiconductor material (26, 38) contacting the semiconductor substrate; and a portion of the trench layer to expose the semiconductor material (38) as one or more semiconductor fins (see figures 4-11). With regards to claims 2, 3, and 23 Wu disclose the trench layer is comprised of a plurality of layers, and that the plurality of layers comprises a first oxide layer (18), a nitride layer (20) on the oxide layer and a second oxide layer (30) on the nitride layer. With regards to claim 10 , Wu disclose a conformal (blanket) deposition (see column 5 lines 10-20). With regards to claim 22, Wu disclose the substrate is comprised of a silicon substrate (see column 3 lines 38-60).

Response to Arguments

Applicant's arguments filed 11/3/06 have been fully considered but they are not persuasive. The applicant contends "the trench layer 34 is never exposing the semiconductor substrate" however it is the examiner's contention that the trench 24

Art Unit: 2891

does expose the substrate. With regards to the applicant's argument that the plug is never exposed, the examiner would like to direct the applicant's attention to the fact that the rejection is directed towards exposing the semiconductor film 38. It is the examiners contention that "filling the one or more trenches" would read on the 38 could be read as filling the "or more trenches".

Allowable Subject Matter

Claims 24-28 are allowed.

Claims 4-7, 9, 15-18, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

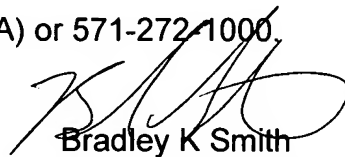

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest removing the second oxide layer and the silicon nitride layer and part of the first oxide layer (claim 4), wherein the trenches have a depth of 10nm (claims 5, 6, 15-17), planarizing the semiconductor material to the surface of the second semiconductor layer (claims 7 and 18), epitaxially growing the semiconductor material within the trenches (claims 9, 20 and 24-28).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley K. Smith whose telephone number is 571-272-1884. The examiner can normally be reached on 10-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bill Baumeister can be reached on 571-272-1722. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
